

LINtop PE HSF

Flexible Film Product

Food &
Consumer
Products

LINtop® PE HSF is a thin 25 µm, high barrier, tray lidding film that is abuse-resistant, anti-fog, leak-proof and printable. Ideal for retail ready modified atmosphere packaging formats. Tailor made shrink performance produces tight, wrinkle-free packs with outstanding clarity and consumer appeal. Ideal for manual and automatic lidding machines and other qualified Form Fill and Seal machines.

Product Benefits

- ↻ Higher barrier compared to industry standard
- ↻ Full color printed film options
- ↻ Crystal clear appearance that is wrinkle free

Sustainability

- ↻ Low gauge film
- ↻ Available in longer rolls for less line downtime
- ↻ Reduced carbon footprint
- ↻ Limit food waste

Shelf Life / Organoleptics

- ↻ High barrier film for MAP packaging formats
- ↻ Maintain the integrity of the product
- ↻ Excellent sealing performance

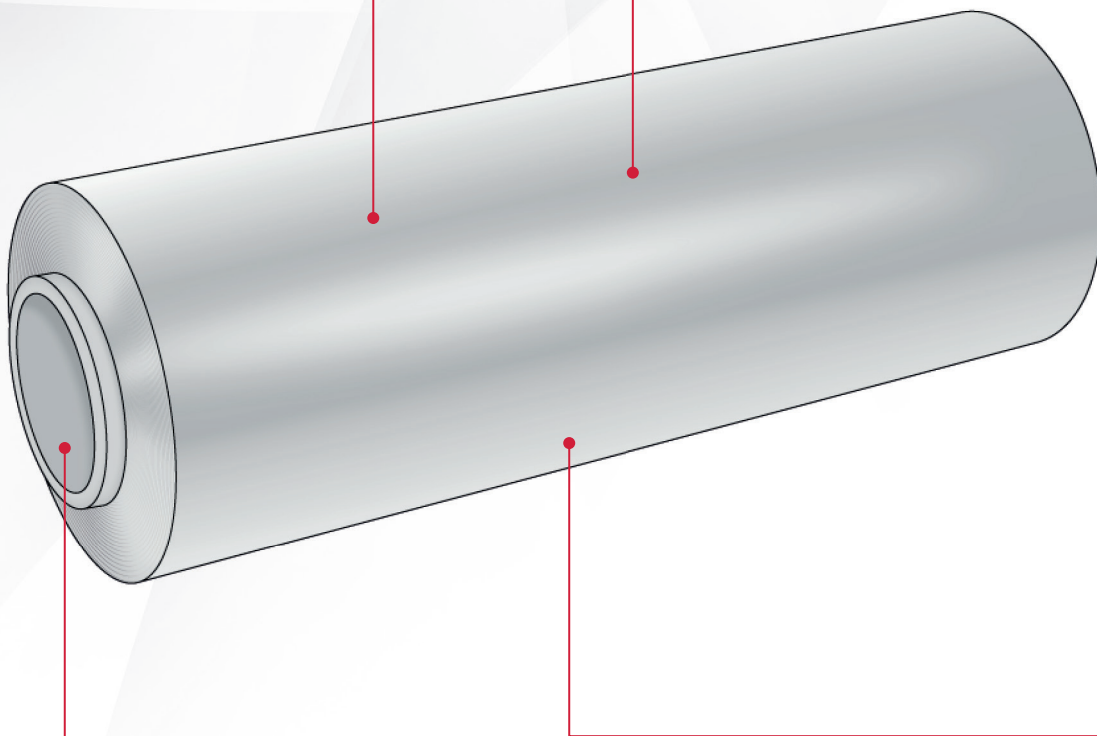

LINtop PE HSF

Technical Information

Food &
Consumer
Products

- Thicknesses from 25 μm
- Reel sizes: Length: 1600 lm from 240 mm to 880 mm; longer rolls than standard, gives less line downtime (Better Total Cost Ownership)
- For use on all Outside cut tray sealers such as Mondini, Ulma, Sealtac, Multivac, Ishida, Proseal, Caveco, Mecapack and Italianpack

- Visual properties: Transparency & Gloss
- Sealing properties: Securely seals at high speeds (up to 120 packs/min) through fresh food contamination
- High barrier (EVOH) to oxygen, other gases, and water vapour, guaranteeing good preservation of food
- Multi-layer vapor extrusion process guaranteeing excellent food preservation

Corporate information

- Food & Consumer Products
- 18 countries worldwide
- 22 manufacturing sites
- Producing plastics in rigid film, rigid trays and flexible films
